LIGHTING  
TO BRIGHTER REALMS

# ABOUT US

Our company, which started its production operation in Istanbul with the brand "Canlar Lighting" in 1995, aims to make stronger its presence in the sector with our new brand "Ac Lighting", which includes lighting products produced using led technology.

With the products we produce by closely following the latest technological developments in the world, we derive the necessary strength from our past experiences to achieve our new brand, which we plan to guide the sector in the world, to achieve its goals. We aim to increase our production capacity and product range in a short time by precisely planning the coordination between our production factory, assembly facility and sales stores in an effective and efficient manner. In this context, we sincerely believe that the results of our investments and studies will be noticed in the sector in a short time. We aim to serve all humanity for many years with low cost and high quality products by increasing the localization of the products we produce every day.

## QUALITY POLICY

We bring together our past experience and latest technological developments within our company in order to reach the highest levels of customer satisfaction in the products and services we produce by using all our resources and capabilities effectively and efficiently.

All processes of our business are planned within the framework of the understanding of "better products and better services". In this context; We are constantly striving to increase the quality of every product produced and every service provided in our company, which is constantly growing and developing.
